

Установка и настройка клиента

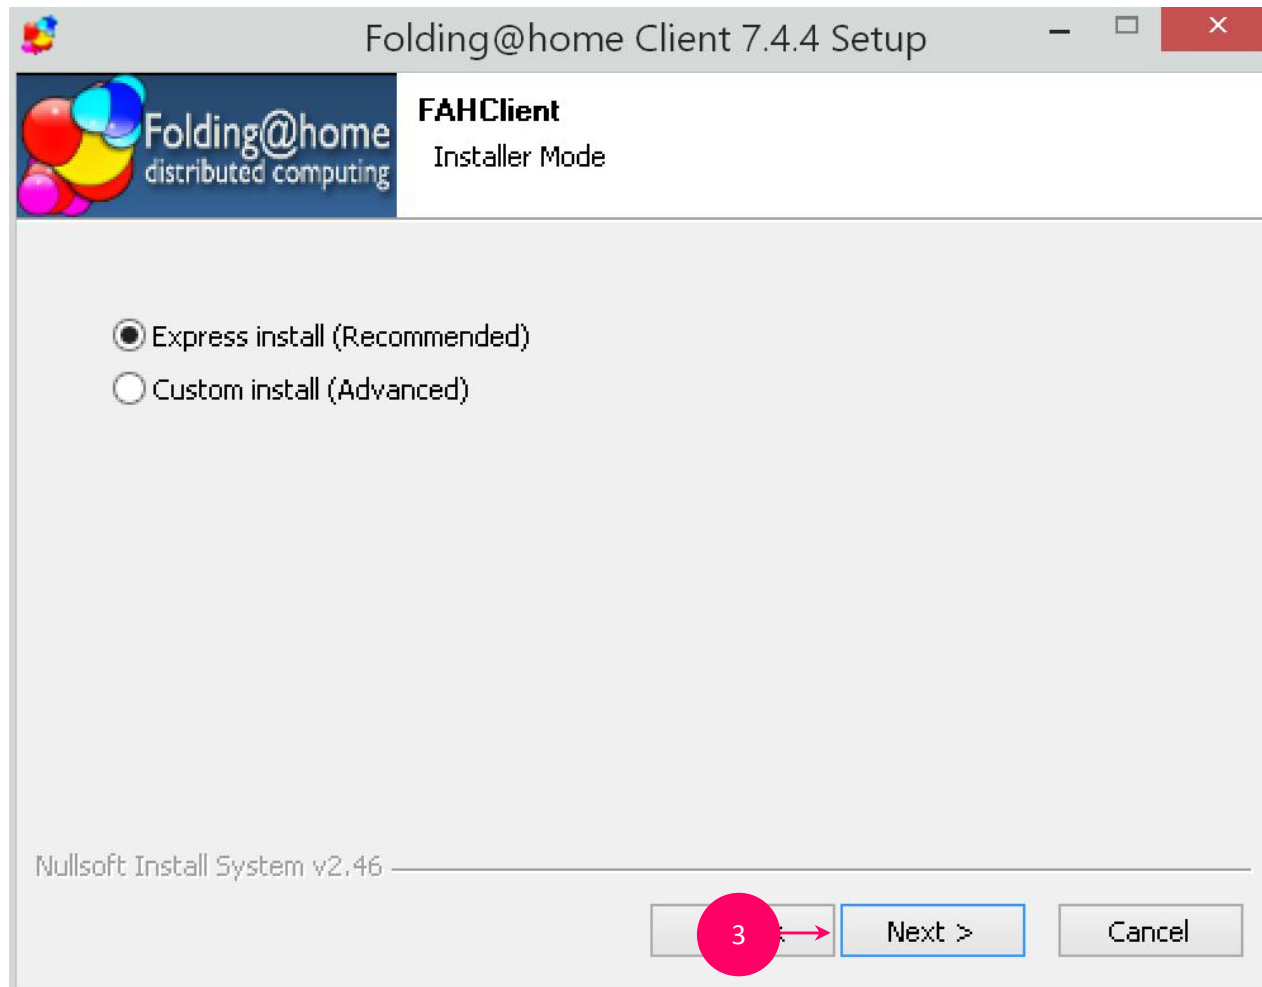

1. Запустить файл установки клиента

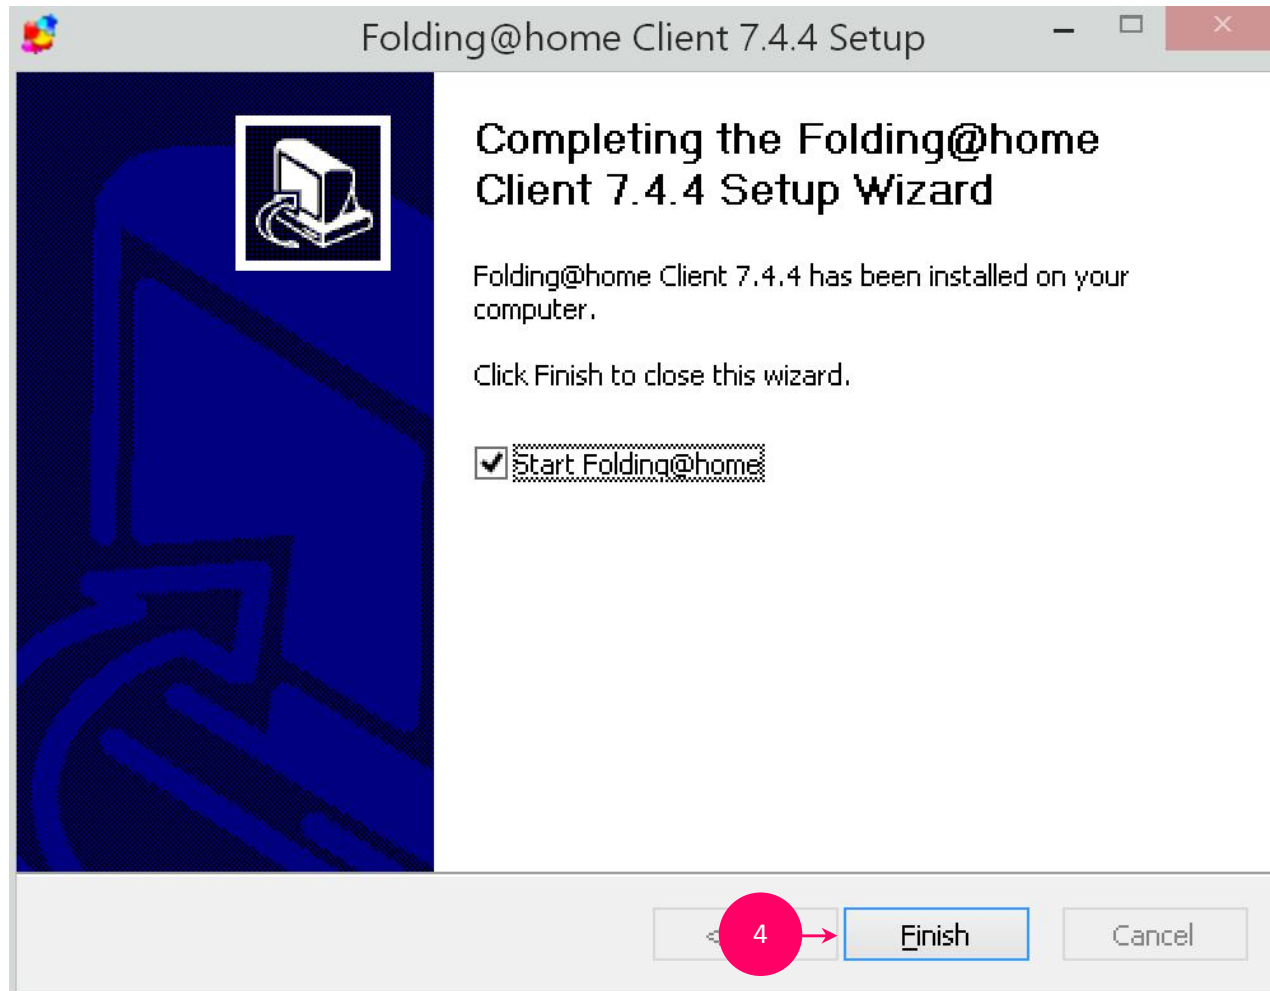

2. Согласиться с условиями лицензии

3. Выбрать экспресс-установку и начать установку.

4. Дождаться окончания установки клиента (обычно не более 1 минуты).

5. Ввести адрес клиента (<http://folding.stanford.edu/client>)

6. Задать основные настройки – имя и команду (A), болезнь, с которой Вы хотите помогать бороться (B), тип производительности (C) и время для работы (постоянное или только во время простоя).

The screenshot shows the Folding@home Web Control interface. At the top, the logo "Folding@home" is displayed. Below it, the "WEB CONTROL" section includes a "Share:" button with social media icons and a "G+1" button showing 2,390 shares. Links for "Learn", "News", and "Help" are also present.

Annotation A points to the "I'm folding as:" section, which shows "Anonymous Team 0" and a "Change Identity" link. Annotation B points to a dropdown menu labeled "I support research fighting" with "Any disease" selected. Annotation C points to the "Power" slider, which is set to "Light" (between "Light" and "Medium" markers). Annotation D points to the "When" section, where the "Only when idle" radio button is selected.

The interface also shows a "CPU:2" progress bar at 0%, a "Paused" status with the reason "waiting for idle", and a table with columns for "Points per day", "Work Unit (PRCG)", "Work Unit (ETA)", and "Estimated Points". A note states: "My computer has unknown time to complete this work unit." At the bottom, there is a large red "Stop Folding" button and a disclaimer: "Quitting the browser will not stop folding. Folding happens in a background process on your computer through the program FAHClient even when Web Control is closed."

7. Здесь задается имя участника (A) и номер команды (B) – 229215.

Все готово!
